

There are many people who work tirelessly behind the scenes to make a union work and one of them is Darren Kruisselbrink. Darren has been tracking data provided by administration for over 10 years to see if it supports the narrative. He has served on 4 negotiating teams and has done several stints on the executive as Treasurer. He has been instrumental in creating the Numeracy Committee which tracks administrative data. He has also served on the Financial Information Committee & Media Committee.
